EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Applicant's attorney Sue Murphy on April 13, 2005.

IN THE CLAIMS:

1. (Currently Amended) A method for detecting a call made to a telephone station associated with a privacy screening service routed from a first telephone station to a second telephone station via a switching network, comprising:

intercepting a call from a first telephone station, the first telephone station associated with a subscriber to a caller detection of privacy screening service, the call directed to a second telephone station;

determining if the second telephone station requires identification of the first telephone station for completion of the call; and

in response to determining that the second telephone station requires identification of the first telephone station for completion of the call, automatically disconnecting the call before a charge for connecting the call accrues to the first telephone station.

9. (Currently Amended) An advanced intelligent network comprising:
a service switching point communicatively connected to a first party telephone station, the first telephone station associated with a subscriber to a caller detection of privacy screening service;

the service switching point including an off-hook delay trigger, which takes an action when an outgoing call destined for a second telephone station associated with a subscriber to a privacy screening service is received, one or more actions including generating a query;

a service control point, communicatively connected to a second service switching point, which receives said query from the first telephone station and which, based on the query, instructs the first service switching point to ~~perform one of completing the call or~~ automatically disconnecting the call before a charge for connecting the call accrues to the first telephone station.

14. (Currently Amended) A computer-readable medium comprising computer-executable instructions for:

intercepting a call from a first telephone station, the first telephone station associated with a subscriber to a caller detection of privacy screening service, the call directed to a second telephone station;

determining if the second telephone station requires identification of the first telephone station for completion of the call; and

in response to determining that the second telephone station requires identification of the first telephone station for completion of the call, automatically disconnecting the call before a charge for connecting the call accrues to the first telephone station.

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rasha S AL-Aubaidi whose telephone number is (571) 272-7481. The examiner can normally be reached on Monday-Friday from 8:30 am to 5:30 pm.
